Date: 17.11.2023

Copy forwarded to OSD to the Vice-Chancellor for information of the Vice-Chancellor.

Yours faithfully,

  
Registrar,  
OUHS, Bhubaneswar

**REGULATIONS & COURSES OF STUDIES  
FOR 5 ½ YEARS BAMS DEGREE COURSE – 2023  
(Bachelor of Ayurvedic Medicine and Surgery)**

(Approved in the First meeting of the Academic Council of  
"Odisha University of Health Sciences, Bhubaneswar" held on October, 16, 2023)

  
Director, Curriculum

**DIRECTOR-CURRICULUM**  
Odisha University of Health Sciences  
Bhubaneswar

  
Registrar

**Registrar**  
Odisha University of Health Sciences,  
Bhubaneswar

**THE ODISHA UNIVERSITY OF HEALTH SCIENCES,  
BHUBANESWAR- 751009**

**REGULATIONS & COURSES OF STUDIES  
FOR 5 ½ YEARS BACHELOR OF AYURVEDIC MEDICINE AND SURGERY (BAMS) DEGREE  
COURSE – 2023**

- 1. Title and commencement of the Program:**
  - i. These regulations may be called "Bachelor of Ayurvedic Medicine and Surgery" (In short BAMS) Regulations- 2023".
  - ii. These regulations and courses of studies (syllabus) are in conformity with the National Commission for Indian Systems of Medicine (In Short NCISM).
  - iii. They shall come into force with effect from current the academic session 2023-24.
  - iv. The Regulations framed are subject to modification by the Academic Council and Executive Board of the Odisha University of Health Sciences, Bhubaneswar from time to time.
- 2. Introduction:** Ayurveda, often called as the "Science of life," is an ancient Indian system of medicine that emphasizes the holistic well-being of an individual. Ayurveda education in India traces its roots back to ancient times when knowledge was imparted through the Gurukula system. Students would live with their gurus (teachers) to gain comprehensive knowledge and practical experience in Ayurveda. The transmission of knowledge occurred through oral tradition and hands-on training, ensuring a strong teacher-student relationship. The Charaka Samhita, Sushruta Samhita, and Ashtanga Hridaya are ancient Indian texts that are foundational to the practice of Ayurveda, the traditional system of medicine in India. The curriculum combines theoretical knowledge, practical training, and clinical exposure to prepare students for professional practice. Electives add value and strengthen the advancement in the subjects of studies.

An anonymous proverb says 'it is not good because it is old; it is old because it is good'. An important lesson from the study of Ayurveda's history is revelation of its original spirit of curiosity, questioning, and experimentation as a means to being a progressive science. Undoubtedly, Ayurveda represents a rich tradition of knowledge based on sound logic, reasoning, questioning, and critical assessment. The culture of inquisitiveness and the art of questioning are extremely important for any knowledge-based society. The spirit of scientific progress requires dynamic thought processes, vibrant interactions, and free exchange of ideas.

Going forward, Ayurvedic solutions will play a significant role in helping people build real health by preventing and removing the root cause of chronic health issues. Ayurveda can revolutionize the modern healthcare ecosystem and make the future medical system more sustainable.

Today's medical education should focus more on bedside teaching, hands on training, interventional skills, technology, project-based learning, etc. Bedside teaching is a vital component of medical education, that the learners should have the opportunities to use their senses to learn holistic medicine, a vital aspect often difficult to communicate in words.

Moreover, research and innovation are the call of hour to further advance the growth and acceptance of Ayurveda education. It is the need of the hour to emphasize on **evidence-based practice, interdisciplinary approaches and integration of technology in Ayurveda** and enhance its acceptability.

- 3. Goal:** To change the perception of Ayurveda as an alternative or traditional medicine system and bring into the mainstream though evidence-based practice, interdisciplinary approaches and integration of technology in Ayurveda and enhance its acceptability.

4. **Objective:** To produce graduates who efficiently serve in health services as Ayurvedic practitioners by providing relief to the patients through Ayurvedic therapeutic measures.
5. **Eligibility for admission to the Course:** The eligibility criterions as prescribed by the National Commission for Indian System of Medicine from time to time shall be applicable to the affiliated Colleges / Institutions under this University mutatis mutandis. In addition, candidate (s) allotted a seat on the basis of qualifying examination and merit, shall be required to submit college leaving certificate, migration certificate (if applicable) in original, physical fitness certificate and a declaration before the Principal / Head of the Institution that;

- (i) I am not continuing in any Degree Course under any State, Deemed, Central University and Autonomous Body,
- (ii) I have not been involved in any kind of criminal and unlawful activities in the past.

Provided, after fulfilment of all condition (s), the University on receipt of student detail with prescribed fees, shall issue University Registration Number as per OUHS First Statute- 2023, which shall be used as Roll Number for End Term Professional Examination (s).

Provided further, after the admission is over, the College / Institution shall send the list of admitted students to the National Commission for Indian System of Medicine within cutoff date of admission for verification to ensure the compliance of the provisions of the regulations at any time.

6. **Duration:** The duration of Bachelor of Ayurvedic Medicine and Surgery (BAMS) Degree course shall be of 4 ½ academic years from the date of commencement of course to the date of completion of examination which shall be followed by one year of compulsory rotating internship. A learner shall not be entitled to graduate later than ten (10) years of her/his joining the first Bachelor of Ayurvedic Medicine and Surgery (BAMS) course.

Cycle	Course Title	Duration
1	First Professional	Eighteen Months
2	Second Professional	Eighteen Months
3	Third Professional	Eighteen Months
4	Compulsory Rotatory Internship	Twelve Months

7. **Medium of instruction:** The medium of instruction for the programme shall be Sanskrit, or Hindi, or any recognized regional language including 'Odia', and 'Hindi':

Provided that in case, if any institute is admitting students from different states or international students, the medium of instruction shall be English.

Provided further, the medium of assessment shall be English, and Hindi wherever necessary.

8. **Commencement of the Course:** The course will commence from October 1<sup>st</sup> of every year or as to be prescribed by the National Commission for Indian Systems of Medicine, India from year to year.

9. **Academic Year:** The academic year shall be twelve months commencing from the first day of enrolment into the course. However, any modification by the National Commission for Homoeopathy issued from time to time shall deemed to be applicable and binding on the Colleges / Institutions.

10. **Attendance:** The component wise minimum attendance percentile shall be as mentioned below;

Subjects	Minimum attendance percentage
Subjects taught in one phase	75% theory, 75% Practical
Electives	As prescribed by NCISM.
Internship	As prescribed by NCISM.

11. **Course Cycle and Structure of BAMS:** The 5 ½ years course cycle including 1-year compulsory rotating internship and structure prescribed hereunder;

11.1. **Code (s):** The codes used in this Regulations & Courses of Studies.

- The total number of digits (Numerical & Letters) used in the course is 9 (Nine).
- The 1<sup>st</sup> two digits (Numerical) indicates the Year of Courses of Studies.
- The 3<sup>rd</sup> digit (Letter) indicates the "Faculty" "Ayurveda".
- The 4<sup>th</sup> & 5<sup>th</sup> digits (Letters) indicate the Course Code "BAMS".
- The 6<sup>th</sup> & 7<sup>th</sup> digits (Letters) indicate the Subject Code.
- The 8<sup>th</sup>, 9<sup>th</sup> & 10<sup>th</sup> or 9<sup>th</sup> & 10<sup>th</sup> digit (s) (Numerical and Letter or Letter and Numerical) indicate the year and sequence of the Theory Subject (s) or Practical of the year.

- (v) practical use of local anesthetic techniques and use of anesthetic drugs;
- (vi) radiological procedures, clinical interpretation of X-ray, Intra Venous Pyelogram, Barium meal, Sonography and Electro Cardio Gram;
- (vii) surgical procedures and routine ward techniques such as-
  - (a) suturing of fresh injuries;
  - (b) dressing of wounds, burns, ulcers and similar ailments;
  - (c) incision and drainage of abscesses;
  - (d) excision of cysts;
  - (e) venesection;
  - (f) application of Ksharasutra in ano-rectal diseases; and
  - (g) rakthamokshana, Agnikarma, Ksharakarma.

**(3) Shalakya Tantra.** - The intern shall be practically trained to acquaint with and to make him competent to deal with following, namely: -

- (i) diagnosis and management of common surgical disorders according to Ayurvedic principles;
- (ii) intern shall be involved in Pre-operative and Post-operative managements;
- (iii) surgical procedures in Ear, Nose, Throat, Dental problems, Ophthalmic problems;
- (iv) examinations of Eye, Ear, Nose, Throat and Refractive Error with the supportive instruments in Out-Patient Department; and
- (v) all kriyakalpas, Nasya, Raktamokshan, Karnauparan, Shirodhara, Putpak, Kawal, Gandush at Out-Patient and In patient Department level.

**(4) Prasuti Tantra & Stree Roga.** - The intern shall be practically trained to acquaint with and to make him competent to deal with following, namely: -

- (i) antenatal and post-natal problems and their remedies, antenatal and post-natal care;
- (ii) management of normal and abnormal labours; and
- (iii) minor and major obstetric surgical procedures including Yoni Purna, Yoni Pichu, Uttarbasti etc.
- (iv) all routine works such as case taking, investigations, diagnosis and management of common striroga by Ayurvedic medicine;
- (v) screening of common carcinomatous conditions in women.

**(5) Kaumarbhritya:** The intern shall be practically trained to acquaint with and to make him competent to deal with following, namely: -

- (i) Care of new born along with immunization programme including Svamaprasana;
- (ii) Important pediatric problems and their Ayurvedic management;
- (iii) panchakarma in children.

(6) **Panchakarma.** - The intern shall be practically trained to acquaint with and to make him competent to deal with following, namely: -

- (i) Panchakarma & Upakarma procedures and techniques regarding Purva Karma, Pradhan Karma and Pashchat Karma;
- (ii) management of procedural complications, counselling of patients for procedures, maintenance of therapy rooms etc.

(7) **Visha Chikitsa:** The intern shall be engaged in diagnosis and treatment of animate (jangama visha) and inanimate (sthavara visha) poisoning, cumulative toxicity (gara visha and dooshi visha), incompatible food (viruddha ahara), alcoholism etc. Diagnosis & treatment for various skin diseases.

**13. Scheme of Internal Assessments and passing criteria:** There shall be three number of Periodic Assessments in each Term of First Professional, Second Professional, Third (Final) Professional. In addition, while there will be Term Test (s) in 1<sup>st</sup> & 2<sup>nd</sup> Term, the University Examination shall be in 3<sup>rd</sup> Term. A student is required to appear all, and secure minimum 50% marks.

**13.1. Scheme:** The Assessment of students shall be in the form of Formative and Summative Assessments as under-

(a) **Formative Assessment.** - Students shall be assessed periodically to assess their performance in the class, determine the understanding of programme material and their learning outcome in the following manner, namely: -

(i) Periodical Assessment shall be carried out at the end of teaching of a topic or module or a particular portion of syllabus and the evaluation methods as per the following table may be adopted as suits to the content, namely: Table- 1, 2, 3, 4, 5 & 6.

(ii) (a) internal evaluation shall be conducted by the College and Institute at the end of six months (First Term Test) for thirty per cent. of the syllabus and at twelve months (Second Term Test) for forty per cent. new part of the syllabus.

(b) The remaining thirty per cent. of syllabus shall be completed in the last six months (Third Term) before university examination;

**13.2. Distribution of Marks:** The schedule and distribution of marks in respect of Subjects carrying one Theory and more have been prescribed hereunder separately under Table No 5 & Table No 6.

**Table – 1: NCISM Guideline on Internal Assessment.**

Sl	Sub	Papers	Theory	Practical / Clinical Assessment					G Total
				Practical / Clinical	Viva	Electives	IA	Sub Total

13.2 Scheme of Internal Assessments Evaluation Methods: The Scheme of Evaluation Methods for Periodical Assessment as prescribed in the Structure and relevant Table-No 1, Table-No 2, Table No -3 & Table- No 4, Table No 5, & Table No 6 shall be as under;

Sl	Evaluation Methods for Periodical Assessment
1	Practical / Clinical Performance
2	Viva Voce, MCQs, MEQ (Modified Essay Questions/Structured Questions)
3	Open Book Test (Problem Based).
4	Summary Writing (Research Papers/ Samhitas)
5	Class Presentations; Work Book Maintenance.
6	Problem Based Assignment.
7	Objective Structured Clinical Examination (OSCE), Objective Structured Practical Examination (OPSE), Mini Clinical Evaluation Exercise (Mini-CEX), Direct Observation of Procedures (DOP), Case Based Discussion (CBD).
8	Extra-curricular Activities, (Social Work, Public Awareness, Surveillance Activities, Sports or Other Activities which may be decided by the department).
9	Small Project

**13.3. Remedial Classes / Assessments:** Each College / Institution shall arrange remedial classes / sessions for students who are either not able to score qualifying marks or have missed on some assessments due to any valid reason soon after the publication of college level examinations results, and reassess.

Provided, the candidate must have fulfilled the minimum percentage of attendance in the theory, and practical / clinical sessions. This chance would be extended only after thorough analysis of the reasoned grounds for his / her absence or poor performance.

Provided further, such cases shall be placed before the Examination Committee of the College / Institution whose decision shall be final and binding.

**13.4. Internship: 12 Months:** During the rotational posting (s), the performance of an intern in a Unit / Department shall be assessed.

**(1) Evaluation of Internship. –**

(i) The evaluation system shall assess the skills of a candidate while performing the minimum number of procedures as enlisted with an objective that successful learning of these procedures will enable the candidates to conduct the same in his actual practice.

(ii) The evaluation shall be carried out by respective Head of Department at the end of each posting and the reports shall be submitted to Head of the institute in the prescribed form.

(iii) On completion of one year of compulsory rotatory internship including online course on Public Health, the Head of the Institute evaluate all the assessment reports in the prescribed form, provided by various Head of the Department at the end of respective posting and if found satisfactory, the intern shall be issued Internship Completion Certificate in the prescribed form within seven working days.

(iv) On obtaining below fifteen marks as per prescribed form or less than fifty per cent. of marks, in an assessment in any of the departments he shall be required to repeat the posting in the respective department for a period of thirty per cent. of the total number of days, laid down for that department in Internship Training and posting.

(v) Candidate shall have the right to register his grievance in any aspects of conduct of evaluation and award of marks, separately to the concerned Head of the Department and Head of the Institution, within three days from the date of completion of his evaluation, and on receipt of such grievance, the Head of the Institution in consultation with the Head of the concerned department shall redress and dispose of the grievance in an amicable manner within seven working days.

**14. Eligibility criterions for appearing University Examinations:**

**14.1.** The final First Professional, Second Professional, and Third Final Professional Examinations shall be conducted by the University. A student is required to fulfill the following in order to be eligible for appearing First, Second, & Third Professional University Examinations;

- (i) Attended 75 % theory and 75% practical classes,
- (ii) completed required certifiable competencies for the concerned phases of training, and successful completion and passing of examination of prescribed electives;
- (iii) Secure at least 50% of marks of the total marks combined in theory and practical / clinical; not less than 40% marks in theory and practical separately for the internal assessment in a particular subject in order to be eligible for appearing at the final University examination of that subject.

- (iv) An average of the marks scored in all periodical assessments and Terminal Tests of the Professional will be accounted for 15 / 30 Marks in the final internal assessment scores of University examinations.
- (v) Not been debarred for any objectionable mis-conduct or malpractice by the Institution, and University, and

Provided further, a student shall be required to qualify in all nine electives of first, second and third professional sessions before appearing third professional university examination.

Provided furthermore, if a candidate has not secured requisite aggregate in the internal assessment may be subjected to remedial measures by the institution. If he/she successfully completes their mediation measures, he/she will be eligible to appear for University Examination. Remedial measures shall be completed before submitting the internal assessment marks off / online to the university.

15. **Examinations:** There shall be one main examination before completion of First, Second, and Third Professional consisting of 18 (Eighteen) months each and a supplementary to be processed not later than 3- 6 weeks from the date of the declaration of the results of the main examination for every professional.

#### 15.1. End Term Examinations (University):

- a) **First Professional:** The first Professional examination shall be held by the end of first Professional training (18 months including examination), in the subjects - Sanskrit & History of Ayurveda (Sanskrit & Ayurveda Itihas), Fundamental Principles of Ayurveda & Quantum Mechanics (Padartha Vigyan), Human Physiology (Kriya Sharira), Human Anatomy (Rachana Sharira), and Study of Ayurveda Classical Text I (Samhita Adhyana-I).
- b) **Second Professional:** The second Professional examination shall be held by the end of second professional training (18 months including examination), in the subjects - Pharmacology & Materia Medica Herbal (Dravyaguna Vigyan), Materia Medica – Mineral & Metals & Pharmaceutical Science (Rasashastra Evam Bhaishajya Kalpana), Methods of Diagnosis, Diagnostic Procedure & Pathology (Roga Nidan Evam Vikriti Vigyan), Clinical Toxicology & Medical Jurisprudence (Agad Tantra Evam Vidhi Vaidyaka), Study of Ayurveda Classical Text (Samhita Adhyayan-II), and Life Style Management, Public Health & Yoga (Swasthviritta Evam Yoga).
- c) **Third Professional:** The third Professional Examination shall be held by the end of third professional training (18 months including examination) in the subjects - Internal Medicine including Psychiatry, Rejuvenative Medicine, Reproducing Medicine & Epigenetics (Kayachikitsa including Manasa Roga, Rasayana, & Vajikarana), Gynecology & Obstetrics (Prasuti Tantra Evam Stree Roga), Therapeutic Procedural Management (Panchakrama & Upakram), General Surgery (Shalya Tantra), Ophthalmology, Oto-rhino-laryngology & Oro-dentistry (Shalakya Tantra), Paediatrics (Kaumarabharitya), Study of Ayurveda Classical Text (Samhita Adhyayan III), Emergency Medicine (Atyaikachikitsa), and Research Methodology & Medical Statistics.
- d) **No of Attempts:** A maximum number of four permissible attempts would be available to clear the Professional University examination, whereby the 1<sup>st</sup>, 2<sup>nd</sup>, & 3<sup>rd</sup> Professional course shall have to be cleared within 9 years of admission of a candidate to the said course. Partial attendance at any University examination shall be counted as an availed attempt.

#### 15.2. Scheme of Theory Examinations (Summative):

- (i) The Nature of questions will include different types such as structured essays (Long Answer Questions - LAQ), Short Answers Questions (SAQ) and objective type

questions (Selection / Supplied) (e.g. Multiple Choice Questions - MCQ). Marks for each part should be indicated separately. MCQs shall be accorded a weightage of not more than 20% of the total theory marks.

(ii) The Practical / clinical examinations will be conducted in the laboratories and /or hospital wards.

The Viva / oral examination should assess approach to patient management, emergencies, attitudinal, ethical and professional values.

15.3. **Uniform Formats / Templates:** The University, therefore, has prescribed following uniform format (s) to be followed at the college / institution level, and university end for all purposes under Annexure A (Series).

15.4. **Preservation of Evidences:** All evidences (Questions, Answer Booklets, and other records) maintained at College / Institution and University level shall be preserved at respective end as a part of record (Electronic / Hard Copy) for the whole tenure of 10 years of the Course and shall be subject to scrutiny at the time of verification.

16. **Registration (Formative & Summative):**

(i) The College / Institution shall register the subjects of eligible students with the University on payment of a fee as to be notified by the University towards conduct of professional (Regular / Supplementary / Attempt / Detained) examinations. The College / Institution shall retain 15% of the University fees towards Examination Centres expenditure. However, such retention of fees @ 15% shall not be applicable in case of Supplementary / Attempt / Detained Examinations.

(ii) The College / Institution shall follow uniform Question pattern / template / Answer Booklets and Records for conducting Periodical Assessment and Terminal Tests (Theory, and Practical) Assessments.

17. **Passing Heads & award of Degree:**

(i) The minimum marks required for passing the examination shall be fifty per cent. In theory component and fifty percent in practical component (that include practical, clinical, viva-voce, internal assessment and electives wherever applicable) separately in each subject.

In case, if a student could not qualify the minimum THREE ELETIVE courses during the respective professional but qualifies during later professional sessions, the marks of those electives shall not be added to the viva marks of respective subjects.

(ii) The theory, and practical (Including Elective) marks secured by a student in First, Second, & Third Professional, subject code (s) (AY-UG), title of subject (s) with equivalent terms and medium of instruction allotted by the NCISM shall be suitably reflected in the final Mark Sheet (s) to be issued to the successful students by the University. However, no class shall be reflected in the Mark Sheet.

(iii) The University shall issue a Bonafide Certificate after successful completion and passing in all First to Third (Final) Professional University examinations including electives enabling the candidate to join the compulsory internship programme and provisional registration certificate from State Board or Council if any for Compulsory Rotatory Internship.

(iv) A candidate shall be awarded Ayurvedacharya (Bachelor of Ayurvedic Medicine and Surgery-B.A.M.S) Degree after passing all the examinations and completion of the laid down programme of study extending over the laid down period and the compulsory rotatory internship extending over twelve months and the nomenclature of degree shall be Ayurvedacharya (Bachelor of Ayurvedic Medicine and Surgery -B.A.M.S).

18. **Promotion, Carry over benefit and Re-admission:**

a) If a student who failed in one or two subjects of First Professional shall be allowed to keep terms of the Second Professional session and to appear in Second Professional examination; However, if a student who failed in more than two subjects shall not be allowed to keep term in Second Professional session.

b) If a student who failed in one or two subjects of Second Professional shall be allowed to keep the terms of the Third (Final) Professional session; However, if a student who fail in more than two subjects shall not be allowed to keep terms in Third (Final) Professional session.

Provided further, before appearing for Third (Final) Professional examination, the students shall have to pass all subjects of First and Second Professional and shall qualify nine electives.

c) A candidate seeking re-enter to the any Professional Year Course shall be subject to condition that s/he is not subject to any disciplinary action and no charges are pending or contemplated against them. In addition, s/he shall submit a declaration to the extent that s/he has not pursued or undertaken any recognized course or training during such period. The student shall follow the curriculum / syllabus in vogue (currently approved / is being followed) for the Course. However, candidates having a break of study of 2 years and above from the date of admission will not be considered for readmission.

19. **Supplementary Examination:** A supplementary examination will be held within 6 months from the scheduled date of the main examination for every professional.

20. **Classification of successful candidates and award of Degree:** The University shall follow the Class pattern till the adoption of Grading System in the Academic Council and Executive Board.

20.1. **Declaration of Class:** A candidate having appeared in all the subjects in the same examination and passed that examination shall be placed in Pass class irrespective of the percentage of marks secured by him/her in the whole examinations.

20.2. A candidate having appeared in all the subjects in the same examination and passed in all University's 1<sup>st</sup>, 2<sup>nd</sup>, and 3<sup>rd</sup> Bachelor Examinations & Internship irrespective of percentage of marks secured by him / her in the whole examinations, and shall be eligible for award of Bachelor of Ayurvedic Medicine and Surgery.

21. **Log Book, Record and Evaluation Guidelines:**  
It shall be compulsory to maintain the record of procedures done / assisted / observed by him / her on day-to-day basis in a specified an e-logbook and the intern shall maintain a record of work, which is to be verified and certified by the Medical Officer or Head of the Unit or Department under whom he works.  
Failure to produce e-log book, complete in all respects duly certified by the concerned authority to the Principal / Director at the end of Internship Training Programme, may result in cancellation of his performance in any or all disciplines of Internship Training Programme.  
The institution shall retain soft copy of the completed and certified e-logbook and is to be made available for verification.

22. **Withdrawal from Course, Struck off from the rolls of the College / Institution Admitted and withdrawal of Degree:**

22.1. The University upon application, shall cancel the registration number issued to the candidate, and issue migration certificate on payment of fee to be prescribed by the University.

22.2. A student's name will be struck off from the rolls of the College / Institution in any of the following cases if he/ she does not qualify / pass:

- a) 1<sup>st</sup> Professional Examination in 4 attempts including regular, supplementary, attempt, or detained examinations,
- b) 2<sup>nd</sup> Professional Examination in 4 attempts including regular, supplementary, attempt, or detained examinations,
- c) 3<sup>rd</sup> Professional Examination in 4 attempts including regular, supplementary, attempt, or detained examinations.

**22.3.** Any student found to have obtained admission in fraudulent manner, if the documents furnished for gaining admission by any student are found to be forged/ false/ doctored at any stage of study.

**22.4.** If any student is found to be involved in serious breach of discipline

**22.5.** A degree awarded by the University may be withdrawn if it is found at the later stage that the candidate has submitted any forged document or ineligible at the time of admission to the course.

**23.** **Medal (s), Award (s) & Prize (s):** The University shall notify as and when decided by the Executive Board from time to time.

**24.** **Discretionary Power:** Notwithstanding anything contained in the above, in case of any doubt or difficulty as to the interpretation of these Regulation (s), the matter shall be referred to the Vice Chancellor and his / her decision in this behalf, subject to the provisions of the OUHS Act - 2021, and 1<sup>st</sup> Statute - 2023 shall be final.

**25. Glossary of Terms Used:**

1	Case Based Learning	Case-Based Learning involves diving into real-life situations. Here, students engage with a case, often drawn from clinical practice or real-life scenarios, as a starting point for learning. These cases encourage students to apply their knowledge and think critically. They analyze the situation, consider different angles, and propose solutions. This approach transforms learning into a practical adventure where students put their knowledge to the test by solving genuine problems.
2	Case Presentation	Presentations offer a multifaceted assessment platform. They not only gauge students' depth of subject knowledge but also hone their verbal communication, organization, and public speaking abilities, fostering well-rounded development.
3	Case Taking	Assessing students' interactions with simulated patients or cases evaluates their clinical and communication skills. It demonstrates their ability to gather information, diagnose, and recommend appropriate solutions.
4	Checklist-Based Assessments	Checklist-based assessments provide structured evaluation criteria for various skills or tasks. They offer a systematic way to measure performance against predefined standards, ensuring comprehensive coverage of essential competencies.
5	Class Presentation	Presentations offer a multifaceted assessment platform. They not only gauge students' depth of subject knowledge but also hone their verbal communication, organization, and public speaking abilities, fostering well-rounded development.
6	Clinical Cases	Clinical case exams present scenarios resembling real patient encounters. Students diagnose, analyze, and propose treatment plans based on the provided information, demonstrating clinical reasoning and decision-making skills.

7	Clinical Video Cases	Clinical video cases provide a virtual insight into real-world scenarios, testing students' diagnostic and decision-making skills. By evaluating their ability to analyze and respond to complex patient situations, this assessment mirrors clinical practice.
8	Compilations	Compilations involve students gathering and presenting a collection of their work or accomplishments. This assessment method showcases their achievements, growth, and learning journey, offering a holistic view of their progress.
9	Course Code	A Code allotted by the University for smooth management of courses.
10	Creativity Writing	Creative writing assessments tap into students' imaginative prowess, challenging them to apply theoretical concepts in innovative ways. This approach fosters expression, original thinking, and the synthesis of diverse ideas.
11	Critical Reading of Papers	Critical reading of papers hones students' analytical skills as they assess research articles. This method evaluates their capacity to extract meaningful insights, identify strengths and limitations, and engage with scholarly literature.
12	CWS	Case-Writing Skills assesses students' ability to construct comprehensive clinical cases. It evaluates their understanding of clinical concepts, communication skills, and their capacity to present complex medical scenarios.
13	Debate	Debates immerse students in dynamic discussions, honing research skills, critical analysis, and effective articulation of viewpoints. They encourage in-depth exploration of theoretical topics while evaluating persuasive capabilities.
14	Formative Assessment	An assessment conducted during the instruction with the primary purpose of providing feedback for improving learning.
15	Hands-On Skills	Practical assessments involve performing specific procedures or tasks. Students demonstrate psychomotor skills, accuracy, and attention to detail, showcasing their competence in applying theoretical knowledge in real-world settings.
16	Home Assignments	Any task given to learners beyond regular hours with an instruction for evaluation.
17	DOPS	Directly Observed Procedural Skills assesses procedural skills under supervision. Trained assessors directly observe and evaluate students' performance, ensuring competence in performing practical tasks and procedures.
18	Identification	Identification tasks assess students' knowledge of different elements, such as specimens, objects, or components relevant to their field. It evaluates their recognition and categorization skills. Problem Solving: Practical problem-solving tasks replicate real-world challenges. Students apply their theoretical understanding to find solutions, showcasing their critical thinking and analytical skills.
19	Interactions	Interactions foster dynamic engagement by assessing students' ability to communicate, collaborate, and respond effectively to diverse situations. These interactions can encompass discussions, debates, and role plays, evaluating their interpersonal and teamwork skills.
20	Internal Assessment	Range of assessments conducted by the teachers teaching a particular subject with the express purpose of knowing what is learnt and how it is learnt. Internal assessment can have both formative and summative functions.

21	Practical Record	Practical Record, or case sheet
22	LAQ	Long Answer Questions assess in-depth understanding and critical analysis. Students are expected to provide detailed, structured responses that demonstrate their grasp of complex topics.
23	Library Assignments	Self-directed learning - based on the identified learning resources in the physical and e-library.
24	Log Book	Log books provide a chronological record of students' practical experiences, activities, and accomplishments. This assessment method offers insight into their hands-on training, clinical exposure, and the development of practical skills.
25	Making of Charts	Designing charts showcases students' data interpretation and presentation skills. These assessments demand clarity in conveying complex information visually, assessing their ability to communicate effectively.
26	Making of Model	Crafting models bridges the gap between theory and practicality, evaluating students' ability to translate abstract concepts into tangible representations. This method fosters creativity, attention to detail, and spatial understanding.
27	Making of Posters	Posters amalgamate creativity and communication skills. Crafting visually compelling representations of theoretical concepts evaluates students' visual design abilities and their capacity to synthesize and present information.
28	MCQ	Multiple Choice Questions evaluate a wide range of content efficiently. They test students' recall, application, and analytical skills, offering a diverse assessment of their understanding.
29	Mini-CEX	Mini Clinical Evaluation Exercise evaluates clinical skills through direct observation in real clinical settings. It provides immediate feedback on students' performance, assessing clinical decision-making, patient interaction, and problem-solving.
30	Model	Using models, students demonstrate their understanding of complex structures, systems, or processes. This hands-on approach assesses their ability to manipulate and interact with physical representations of theoretical concepts.
31	Online Quiz	Online quizzes blend technology with assessment, catering to tech-savvy learners. They provide immediate insights into students' understanding, making it a convenient tool for self-assessment and targeted improvement.
32	Online Game-Based Assessment	Game-based assessments leverage the allure of gaming to evaluate learning outcomes. By embedding educational objectives into interactive games, they enhance engagement while measuring knowledge application.
33	OSPE	Objective Structured Practical Examination evaluates practical skills in controlled settings. It involves multiple stations, each assessing specific skills or techniques, providing a well-rounded assessment of students' proficiency.
34	OSCE	Objective Structured Clinical Examination evaluates clinical skills through a series of stations, each focusing on specific tasks. This method rigorously assesses students' ability to perform practical procedures, communicate effectively, and demonstrate critical thinking under timed conditions.
35	Patient Management Problems	Patient management problems simulate real clinical challenges, evaluating students' ability to diagnose, treat, and manage patient conditions. This method assesses their clinical reasoning and application of theoretical concepts.

36	Peer Assessment	Peer assessment involves students evaluating their peers' work, performance, or contributions. This method encourages collaboration, teamwork, and a deeper understanding of assessment criteria.
37	Portfolios	Portfolios are curated collections of students' work that showcase their achievements, reflections, and growth over time. This method encourages self-assessment, critical thinking, and the documentation of diverse learning experiences.
38	Poster	Poster presentations require students to visually present information, combining textual and visual elements. This method evaluates their capability to organize and convey complex concepts in a clear and concise manner.
39	Presentation	Presentations require students to communicate their understanding of a topic to an audience. This method enhances public speaking and communication skills, while also assessing the student's grasp of the subject matter and their ability to synthesize information effectively.
40	Practical Exam	Spotting, Identifications, Clinical Cases, Hands-On Skills Spotting and Identifications: These assessments test students' ability to identify and label specific elements, such as anatomical structures or specimens. They focus on recognition and recall of visual information.
41	Practical Performance	Practical performance evaluations gauge students' competency in applying acquired skills. Whether in a laboratory, clinical setting, or workshop, students are observed as they execute tasks, demonstrating their proficiency and practical application of knowledge.
42	Practical Survey	Practical surveys involve students collecting data from real-world scenarios. They learn how to design surveys, gather information, and analyze results. This method offers a hands-on experience in data collection and analysis, aligning theory with practical research skills.
43	Professional	Annual Examination is termed as Professional Examination.
44	Puzzles	Puzzles: Problem-solving puzzles push students to apply theoretical understanding in innovative ways. By challenging them to unravel intricate scenarios, these assessments nurture critical thinking, analytical skills, and adaptive reasoning.
45	Quiz	Quizzes serve as efficient assessments, evaluating students' grasp of core concepts and reinforcing theoretical fundamentals through repeated practice. They prompt ongoing review, aiding memory consolidation and providing immediate feedback on knowledge gaps.
46	Rating Scales	Rating scales provide a structured approach to evaluating students' performance across predefined criteria. They offer a quantifiable assessment of skills, behaviors, or competencies, allowing for consistent and standardized evaluation.
47	Record Keeping	Record keeping assessments focus on accurate documentation of clinical encounters, procedures, and patient interactions. This method evaluates students' attention to detail, organization, and communication skills in maintaining comprehensive records.
48	Role Play	Role-playing scenarios assess students' ability to apply theoretical concepts to real-life situations. It tests their problem-solving, communication, and interpersonal skills by immersing them in simulated scenarios.
49	SAQ	Short Answer Questions require concise written responses to specific prompts. They assess students' ability to provide focused answers, showcasing their comprehension and application of key concepts.
50	SDL	Self-Directed Learning which a learner learns in absence of a teacher guided

		by the identified objectives and learning resources.
51	Self-Assessment	Self-assessment encourages students to reflect on their own learning and performance. By evaluating their strengths, weaknesses, and areas for improvement, students take an active role in their educational journey.
52	SGL	Small Group Learning formed to facilitate one to one guidance of the learners and to support identified poor learners and encourage bright scholars.
53	Simulated Patients:	Simulated patients offer a controlled environment for students to interact with lifelike scenarios. This assessment method assesses clinical skills, communication, empathy, and the application of theoretical knowledge in a practical context.
54	Sub Code	A Code allotted by the University for smooth management of theory and practical subjects.
55	Structured Viva	Structured viva exams have predetermined questions and evaluation criteria. This focused approach ensures consistent assessment across students and covers specific learning objectives.
56	Summative Assessment:	An assessment conducted at the end of a term to check how much the student has learnt and here undertaken by the University applicable for promotion and certification.
57	SVL Lab activity	Student Virtual Labs, which is a platform that enables students to engage in interactive, and hands-on learning.
58	Team-Based Learning	In Team-Based Learning, learning is a team effort. Students prepare for class on their own, then come together in small groups to apply what they've learned. It's like a structured group activity where everyone contributes. The cool part is that it encourages students to be ready before class and helps them use what they've learned in a practical way. It's all about teamwork and applying knowledge to solve problems.
59	Theory	Theory exams assess students' understanding of fundamental concepts and principles. They often require comprehensive written responses that showcase students' knowledge, critical thinking, and ability to communicate ideas clearly.
60	Theory Extended Matching Item (EMI)	Items present students with scenarios or clinical cases along with a list of possible responses. Students are tasked with matching the most suitable response to each scenario, thereby demonstrating their comprehension of theoretical concepts in practical contexts. This assessment method not only evaluates students' ability to recall information but also tests their application of knowledge to real-world situations, encouraging critical thinking and decision-making skills.
61	Theory Essay Writing	Theory essay writing provides students with an opportunity to explore topics in-depth. By crafting well-structured essays, students not only showcase their theoretical understanding but also their ability to analyze, synthesize, and present coherent arguments. This method assesses not just knowledge retention but also the higher-order cognitive skills of analysis, evaluation, and effective communication.
62	Theory Modified Essay Questions (MEQs)	Theory Modified Essay Questions challenge students to address complex scenarios that require the integration of theoretical concepts. By applying their theoretical knowledge to practical situations, students demonstrate their aptitude for critical thinking, problem-solving, and decision-making. This method goes beyond surface-level understanding, probing into students' ability to synthesize information and apply it effectively.

63	Theory Constructed Response Questions (CRQs)	Theory Constructed Response Questions (CRQs): Theory Constructed Response Questions require students to provide detailed written responses to specific prompts. This method assesses not only students' comprehension of theoretical material but also their capability to apply that knowledge to real-world scenarios. CRQs demand thoughtful analysis and application of theories, providing insights into students' ability to translate theoretical concepts into practical solutions.
64	Trainers' Report	Trainers' reports offer valuable insights into students' performance from the perspective of educators or supervisors. These assessments provide an external perspective on students' progress, clinical skills, and overall competence.
65	Viva Exams	General and Structured General Viva: General viva exams involve oral questioning on various subjects. Students must articulate their knowledge, reasoning, and problem-solving abilities in response to questions posed by examiners.
66	Word Puzzle	Word puzzles inject an element of entertainment into vocabulary acquisition. Alongside assessing knowledge of essential terms, these puzzles stimulate cognitive connections, making learning engaging and memorable.
67	360-Degree Evaluation	360-degree evaluation gathers feedback from multiple sources, including trainers, peers, and self-assessment. This comprehensive approach provides a well-rounded view of students' competencies, behaviors, and interactions.

Total Number of Pages: (XX)		Course: BAMS
		SUB. CODE:
BAMS Year Regular / Supplementary / Attempt / Detained Examination: 20 -		
SUBJECT NAME:		
BRANCH:		
Max Time: 3 Hours	Sitting: 1 <sup>st</sup> 10.00 AM to 1.00 PM	
Max Marks: 100		
Q. CODE: (To be allotted by the University)		
Medium of Writing: English & Hindi for Slokas		
(Applicable for Theory Subjects where there are two Parts)		
Any Question having parts should be answered as whole at one place only. Illustrate answer with diagrams wherever relevant / required if any)		
The figures in the right-hand margin indicate marks.		
Section- A		
1	Objective Type (Selection / Supplied) (5 x 2 Marks)	
a)		
b)		
c)		
d)		
e)		
Q 2	Structured Long Answer Questions (1 x 10 Marks)	
a)		
Q 3	Structured Long Answer Questions (1 x 10 Marks)	
a)		
Q 4	Short Answer Questions (Focused) / (Applied) Case based/ problem-based question (5 x 4 Marks)	
a)		
b)		
c)		
d)		
Section- B		
Q 5	Objective Type (Selection / Supplied) (5 x 2 Marks)	
a)		
b)		
c)		
d)		
e)		
Q 6	Structured Long Answer Questions (1 x 10 Marks)	
a)		
Q 7	Structured Long Answer Questions (1 x 10 Marks)	
a)		
Q 8	Short Answer Questions (Focused) / (Applied) Case based/ problem-based question (5 x 4 Marks)	
a)		
b)		
c)		
d)
